

CALL FOR PAPERS

XIV Russian Scientific Conference with International Participation
"SCIENCE OF THE PRESENT AND THE FUTURE" for students, postgraduates and young scientists
14th-17th of May 2026, Saint-Petersburg, Russia

The 14th International Conference "SCIENCE: PRESENT AND FUTURE" for Students and Young Scientists is organized by the Saint-Petersburg State Electrotechnical University "LETI" (SPbETU "LETI", Saint-Petersburg, Russia).

The conference brings together famous experienced and young scientists, leading experts of industry and commerce in a friendly working atmosphere. This gives a unique opportunity for the presentation and open discussion of the latest achievements in science and innovative technologies. The aim of the conference is to develop creative activity of students, to engage them in the solving of actual problems in the field of science and technology. The conference provides an opportunity for potential employers to present their achievements and to talk about the job and career prospects for graduates of the university.

The conference program includes plenary talks, topical sessions with invited talks and oral presentations, as well as remote (on-line) poster sessions.

The conference materials will be posted on the conference website and registered in the scientific electronic library eLIBRARY.RU. The best reports will be awarded with diplomas according to the decision of the jury. Selected works will be preferred for publication in the journal "Izvestia of ETU "LETI".

The conference will be provided in a mixed format — face-to-face and remotely. The languages of the conference are Russian and English. The registration fee is not required!

CONFERENCE SECTIONS

Information radio engineering systems and devices	Electronics, nanotechnology, nanomaterials
Computer Science and management in technical systems and Engineering	System analysis and information security
Software engineering and autonomous intelligent systems	Electrical systems, drives, automation and electrical technologies
Artificial intelligence in applied fields	Biotechnical systems and technologies
Algorithmic mathematics	Technosphere safety
Information management and processing	Advertising and public relations
Instrument engineering	Modern trends in quality management and the digital economy,
Linguistics	Innovative design: from real objects to digital counterparts

Important Dates

- **31.01.2026** Registration Opens, Materials Submission Starts
- **30.04.2026** Registration Deadline
- **05.05.2026** Materials Submission Deadline
- **14.05.2026** Conference Opening
- **17.05.2026** Conference Closing
